MR312.21 – Vermont Ave Arterial Improvements from Rosecrans

Ave to 182nd Street – The purpose of this project is to improve safety and traffic channelization along Vermont Ave with geometric improvements to eliminate conflict points. Vermont Avenue runs parallel to Freeway 110 and serves as a by-pass for spot congestion on the freeway; improvements will include addition of turn pockets where geometrically possible, channelization, and traffic signal improvements. This project will provide increased safety for the motorists, pedestrians, and bicyclists in the area.
