Lighting

- LED street lighting
- Interior/exterior LED lighting
- Motion sensor controls
- Daylight sensor controls

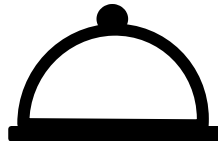

Water Heating

- Efficient storage water heater
- Heat pump water heater
- Tank-less water heater
- New efficient pool boiler
- Pool cover
- Pipe and tank insulation

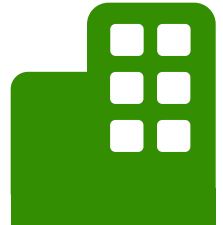

Food Service

- Demand control kitchen ventilation
- Commercial ice machines
- Commercial reach-in refrigerators/freezers
- Commercial electric and gas cooking equipment

Building Envelope

- New efficient windows
- Building shell improvements

Office Equipment

- Data center upgrade
- Plug load occupancy sensor
- PC network software that automatically controls the power setting of networked personal computers at the server level

Heating, Ventilating, and Air Conditioning (HVAC)

- Energy Management System (EMS)
- Evaporative cooler
- Air-side/Water-side economizer
- Chilled water pipe insulation
- New cooling tower
- Thermal energy storage
- New efficient space heating boiler
- HVAC controls (compressor VFD, chilled water temp. reset, demand control ventilation)
- Parking garage exhaust fan VFD

Pumping

- Sprinkler to drip irrigation
- Low pressure sprinkler nozzles
- New high efficiency pump
- Pump retrofit
- Pool pump VFD

Motors

- New premium efficient motor
- Constant speed variable load motor controller
- Motor generator set replacement
