**Lighting**
- LED street lighting
- Interior/exterior LED lighting
- Motion sensor controls
- Daylight sensor controls
- Energy Management System (EMS)

**Water Heating**
- Efficient storage water heater
- Heat pump water heater
- Tank-less water heater
- New efficient pool boiler
- Pool cover
- Pipe and tank insulation

**Food Service**
- Demand control kitchen ventilation
- Hot food holding cabinet
- Commercial ice machines
- Commercial reach-in refrigerators/freezers
- Commercial electric and gas cooking equipment
- On-demand commercial electric hand wrap machine
- Commercial Dishwasher - high temp door-type (Tier 2)

**Office Equipment**
- Data center upgrade
- Plug load occupancy sensor
- PC network software that automatically controls the power setting of networked personal computers at the server level

**Building Envelope**
- New efficient windows
- Building shell improvements

**Heating, Ventilating, and Air Conditioning (HVAC)**
- Energy Management System (EMS)
- Evaporative cooler
- Air-side/Water-side economizer
- Chilled water pipe insulation
- New cooling tower
- Thermal energy storage
- New efficient space heating boiler
- HVAC controls (compressor VFD, chilled water temp. reset, demand control ventilation)
- Parking garage exhaust fan VFD

**Pumping**
- Sprinkler to drip irrigation
- Low pressure sprinkler nozzles
- New high efficiency pump
- Pump retrofit
- Pool pump VFD

**Motors**
- New premium efficient motor
- Constant speed variable load motor controller
- Motor generator set replacement
