**South Bay Fiber Network (SBFN)
Letter of Commitment**

October 14, 2019

The South Bay Cities Council of Governments (SBCCOG) confirms our organization’s commitment to connect to the South Bay Fiber Network (SBFN). We commit to participate in the SBFN at a minimum service level of at least 1 GB at \$1,000/month for our agency’s designated building/site. We understand that, for sites in the South Bay region, up-front capital costs will be paid by the SBCCOG’s use of approved sub-regional Measure M funds. We commit to paying the monthly recurring costs for our elected term of either a three- or five-year period.

We commit to:

- Execute an addendum to the final SBCCOG contract with American Dark Fiber, LLC (ADF), the selected vendor, to provide broadband services;
- Work with ADF personnel to:
 - Meet to address and resolve our questions;
 - Enumerate the SBCCOG building/site to be connected;
 - Define a timeline for permitting, construction, and installation to enable SBFN network connections;
 - Assist with expediting necessary permits;
 - Agree, that ADF will provide initial service to the SBCCOG designated building/site, expected in April-June 2020.

At this time, we commit to a count of 1 (number) site to be connected. (Confirm addresses on the next page and complete the table.)
